

PM Shuttle Check-In Job Description – Woods Hole

Overview: The PM Shuttle Check-in Volunteer is the point person in Woods Hole as the Ride wraps up who makes sure the bike transport trucks and cyclist shuttles are in place, greets all of the riders with their bicycles, makes sure the right bikes are on the right trucks, checks the rider names off of a shuttle list, accounts for any missing riders, tells the trucks and shuttles when to depart, and breaks down the station once the trucks and shuttles are underway. The volunteer packs all station materials into the equipment truck at the end of the shift.

Timing: 1.5-hour shift: 4pm load bikes and answer questions, bike trucks leave at 4:45pm if possible, shuttles depart at 5pm, job ends at 5:30pm.

Detail & Contacts: see Truck & Shuttle schedule for details and contact names and numbers.

Important: PM shuttles return riders and bikes to all 3 start lines. Bikes for 100/Sakonnett Point are in one truck, 41/Mattapoisett are in a second truck, bikes for 20/Bourne are in a third truck. **Please make sure that every rider you check in has their bike in the right truck.** Bike trucks should leave as soon as they are packed to get ahead of the rider shuttle – ideally 15 minutes before the shuttle buses - leaving time to unpack bikes before the people arrive. (But this might not be possible with slower riders)
